

Site name: Kitsap Rifle and Revolver Club (KRRRC), Bremerton, Kitsap County, WA
EPA Site ID#: WAN001002908

Record of Communication

Date of phone call: February 16, 2021

Time: 9:00 a.m.

Phone call participants:

USEPA Region 10

Wally Moon

Monica Tonel

Jeff Fowlow

WA Department of Ecology-NWRO

Robert Warren

Louise Bardy

Purpose of call: To share any updates.

- EPA provided a summary of its past sampling activities at the KRRRC Site (i.e., 2011 Integrated Assessment).
- EPA discussed its determination of No Further Action under the EPA Removal Program at the KRRRC Site based on the potential use of the property as a firing range, and the lack of an imminent threat to human health and the environment that meets EPA's cleanup criteria under CERCLA.
- Ecology informed EPA that they are currently under a hiring freeze, and due to resource issues the site is waiting to be reassigned.
- EPA mentioned citizen concerns regarding the potential migration of contaminants from the property offsite to the Chico Creek area.

Action items

- EPA will evaluate existing available information including the surface water sampling conducted in 2012 by Kitsap Public Health District under a grant with Ecology.
- EPA will contact the Kitsap Public Health District and the Suquamish Tribe.
- EPA will maintain communication with Ecology regarding its evaluation of existing information.
- Ecology indicated that if EPA were to request the review of technical documents, it would make resources available to conduct such review.
